PUBLIC SCHOOLS  
Urban Education. Global Citizens.

## ***“Winning the Game - in the 9<sup>th</sup>”***

The Minnesota Twins RBI program and the Minneapolis and St. Paul Public Schools have partnered to improve awareness about GPAs (Grade Point Averages) and future goals for students who are entering the 9<sup>th</sup> Grade.

Congratulations as you transition to the 9<sup>th</sup> grade! This can be a very challenging time in your education. We want you to know that there’s support for all students at every Minneapolis Public School to provide assistance for you to succeed in your educational pursuits.

One of the most important items that we are highlighting in this initiative is your GPA (Grade Point Average) and that it begins in 9<sup>th</sup> grade, the minute that you walk into your first classes. Maintaining and working toward the best GPA possible is important as you pursue high school athletics, graduation, post high school education and becoming a Division I or II student athlete.

We’ve put together this tool to provide more awareness of how important GPA is regarding your participation in high school sports.

1. In order to participate in high school sports, a student must maintain a 2.0 GPA (minimum) and be credit eligible (on track for graduation). For additional details see your high school athletic director.
2. In order to pursue a post high school education at a college or university, you must graduate from high school and there are required core classes that each student must complete. Your GPA and other required test results are important to your acceptance at colleges and universities.
3. In order to pursue an athletic career at a Division I or Division II college or university, the student must register with the NCAA Eligibility Center and complete 10 CORE classes, seven of which must be completed prior to entering the 12<sup>th</sup> grade and the student must maintain a minimum of a 2.3 GPA in the required CORE classes and graduate from high school.

### **Fun Fact:**

The Minneapolis Public Schools offer 35 different athletic programs for their students!

## **Minneapolis Public Schools Graduation Requirements:**

Students in the graduating class of 2019 and beyond will now have more flexibility to choose courses that interest them and match their postsecondary plans. We are creating more opportunity for students to express themselves as individuals.

- 4 year-long credits in language arts
- 3.5 year-long credits in social studies, including:
  - U.S. history
  - Geography
  - World history
  - Government and citizenship
  - Economics
- 3 year-long credits in mathematics, including (at minimum)
  - 1 year-long credit in geometry
  - 1 year-long credit in algebra II or statistics and probability
- 3 year-long credits of science, including (at minimum)
  - 1 year-long Physical Science
  - 1 year-long Biology
  - 1 year-long Chemistry or Physics
- 1 year-long credit in the arts
- .5 year-long credits in physical education
- .5 year-long credits in health
- 6 year-long elective credits

# NCAA ELIGIBILITY CENTER QUICK REFERENCE GUIDE

## Divisions I and II Initial-Eligibility Requirements

### Core Courses

- **NCAA Divisions I and II require 16 core courses.** See the charts below.
- **Beginning August 1, 2016, NCAA Division I will require 10 core courses** to be completed **prior to the seventh semester** (seven of the 10 must be a combination of English, math or natural or physical science that meet the distribution requirements below). These 10 courses become "locked in" at the start of the seventh semester and cannot be retaken for grade improvement.
  - *Beginning August 1, 2016, it will be possible for a Division I college-bound student-athlete to still receive athletics aid and the ability to practice with the team if he or she fails to meet the 10 course requirement, but would not be able to compete.*

### Test Scores

- **Division I** uses a sliding scale to match test scores and core grade-point averages (GPA). The sliding scale for those requirements is shown on Page No. 2 of this sheet.
- **Division II** requires a minimum SAT score of 820 or an ACT sum score of 68.
- The SAT score used for NCAA purposes includes **only** the critical reading and math sections. The writing section of the SAT is not used.
- The ACT score used for NCAA purposes is a **sum** of the following four sections: English, mathematics, reading and science.
- **When you register for the SAT or ACT, use the NCAA Eligibility Center code of 9999 to ensure all SAT and ACT scores are reported directly to the NCAA Eligibility Center from the testing agency. Test scores that appear on transcripts will not be used.**

### Grade-Point Average

- **Be sure** to look at your high school's List of NCAA Courses on the NCAA Eligibility Center's website ([www.eligibilitycenter.org](http://www.eligibilitycenter.org)). Only courses that appear on your school's List of NCAA Courses will be used in the calculation of the core GPA. Use the list as a guide.
- **Division I** students enrolling full time **before August 1, 2016**, should use Sliding Scale A to determine eligibility to receive athletics aid, practice and competition during the first year.
- **Division I** GPA required to receive **athletics aid and practice on or after August 1, 2016**, is 2.000-2.299 (corresponding test-score requirements are listed on Sliding Scale B on Page No. 2 of this sheet).
- **Division I** GPA required to be eligible for **competition on or after August 1, 2016**, is 2.300 (corresponding test-score requirements are listed on Sliding Scale B on Page No. 2 of this sheet).
- **The Division II** core GPA requirement is a minimum of 2.000.
- Remember, the NCAA GPA is calculated using NCAA core courses only.

#### DIVISION I 16 Core Courses

- 4 years of English.
- 3 years of mathematics (Algebra I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 1 year of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or comparative religion/philosophy).

#### DIVISION II 16 Core Courses

- 3 years of English.
- 2 years of mathematics (Algebra I or higher).
- 2 years of natural/physical science (1 year of lab if offered by high school).
- 3 years of additional English, mathematics or natural/physical science.
- 2 years of social science.
- 4 years of additional courses (from any area above, foreign language or comparative religion/philosophy).

Use for Division I beginning August 1, 2016
